**Buzzeasy Bots for Customer Service**

Geomant's Buzzeasy Customer Interaction platform delivers automated Bots to assist customers, employees and customer service agents.

The use of Bots to provide automated assistance and self-service is becoming more mainstream, and the underlying technology is advancing at a rapid pace. However, care must be taken to ensure that Bots augment, rather than replace human interaction. As Bots learn, and as the technology advances, more and more interactions can be automated, but there must always be an escalation path for exceptional and complex enquiries.

Buzzeasy Bots utilise the latest Microsoft AI technologies, and work seamlessly with other channels, allowing escalation to human chat or voice as and when required.

**Why Buzzeasy Bots?**

- **Enable New Digital Interactions:** Provide your customers with the convenience of interacting on the digital channel of their choice.
- **Reduce Operational Costs:** Automate repetitive, standard customer requests and simpler tasks, saving time for your most valuable assets - your people.
- **Higher Customer Engagement:** A chatbot is always on and can instantly answer a customer's question 24/7, without having to wait in a queue or until the next day when your office opens.
- **Human Touch:** Built-in escalation to a human agent as and when needed to handle complex customer requests and tasks that cannot – yet – be automated by AI.
- **Augment Human Intelligence:** Extend and complement your human agents' work by providing additional insights about the customer interaction.
- **Delivered from the Cloud:** Quick and simple to deploy and test.
Buzzeasy is Geomant’s unique omnichannel customer engagement platform. It enables organisations to communicate with customers and potential customers in new and exciting ways. Buzzeasy Bot features include:

- **Cloud-Based**
  - Highly scalable cloud-based solution, with minimal set-up, facilitating rapid deployment and proof of concept testing.

- **Escalation Options**
